University at Buffalo School of Management M&T Bank MBA Fellows Program

For more than 150 years, M&T Bank has been known as one of the strongest banks in the nation, whose story reflects well-managed growth and a clean balance sheet. Headquartered in Buffalo, M&T is a top 20 full-service U.S.-based commercial bank with a presence in the Northeast and Mid-Atlantic regions, and is partnering with the University at Buffalo School of Management in an effort to attract highly talented MBA candidates who seek a career opportunity in the banking environment. M&T Bank will underwrite MBA costs in the amount of $12,321 in-state, or $18,167 out-of-state per year for students accepted to the M&T Fellows program, provide a paid summer internship, and expect to make an offer of employment in their Executive Associate program that is designed to develop senior leadership within the bank. Executive Associate opportunities exist in multiple functional areas of the bank including Finance, Marketing, Investments, Strategy, Relationship Management, Technology, Operations and more.

The ideal candidate will have at least three years of professional experience (not necessarily in banking or finance), outstanding academic credentials, demonstrated leadership experience, excellent written and verbal communication skills, and strong analytical and quantitative skills. A base level of these skills should be evident in the application to the MBA program with an expectation that the program will add a significant level of improvement in all of these areas. University at Buffalo MBA graduates should anticipate initial Executive Associate assignments in the Western New York region though opportunities for future assignments may develop in metro New York, Maryland, Washington D. C., Pennsylvania, Virginia, Delaware and New Jersey.

Candidates seeking the fellowship must complete the application process for the UB MBA program and interview with M&T Bank Human Resources staff as part of the evaluation process for the fellowship award. Early application submission is encouraged, with the February admissions deadline being the preferred target. Eligibility for this fellowship is restricted to individuals with U.S. work authorization.
