ACADEMIC EXPERIENCE

UNIVERSITY AT BUFFALO, Buffalo, NY, Clinical Assistant Professor, August 2011 - Present MGQ201 - Introduction to Statistics and Computing - Familiarizes students with statistical concepts and computer skills which are valuable in a variety of life and work applications, as well as creates a foundation for more advanced coursework.

MGQ301 – Statistical Decisions in Management - Strengthens skills in the use of statistical methods for decision making and in the interpretation of computer output. Topics covered include estimation, hypothesis testing, regression, and analysis of variance.

MGQ408 – Business Analytics and Data Science - The goal of this course is for students to cultivate analytical and technical skills that enable them to extract meaning from large amounts of data. Students will think about how to use data to address different types of business problems and will employ techniques from analytics and data science to harvest and mine data, identify patterns, create predictive models, and put forth data-driven recommendations.

MGQ606 – Statistical Foundations of Analytics - This course covers the fundamental concepts in statistics that are essential for business and data analytics. Building on descriptive and predictive forms of analytics, students are introduced to the statistical concepts of data analysis. MS-Excel based data modeling will be used extensively throughout the exposition of the concepts.

MGG620 – Data Modeling – Spreadsheets are tremendously powerful tools; they provide the capability to manipulate complex data to supply information and to make decisions. This course is designed to enhance the skill of Excel users.

MGG633 – Model Managerial Process – The main focus of the course will be on modeling decisions in the spreadsheet environment, illustrated by applications from operations, finance, marketing, and human resources. The approaches and techniques for decision-making are useful throughout the firm, both within functional areas and for the essential management challenge of working across functional boundaries.

ERIE COMMUNITY COLLEGE, Buffalo, NY, Department Chair, September 2009 – August 2011, Assistant Professor, September 2001 – August 2011

MT112 – Survey of Mathematics - The objective of this one-semester course is to further develop students' interest in mathematics.

MT125 – College Algebra - The first course in a two-semester sequence of college algebra and trigonometry. The sequence is preparatory for an introductory or survey level of calculus. Basic algebra skills are reviewed and extended,

MT143 – Introductory Statistics I – This four-credit course includes concepts and computer skills which are valuable in a variety of life and work applications, as well as in more advanced coursework. This course will include topics from descriptive and inferential statistics.

PROFESSIONAL EXPERIENCE

- MOOG, East Aurora, NY, Data Visualization Consultant, January 2020 present Conduct training sessions to improve data visualization communication.
- MATERION ADVANCED MATERIALS, Buffalo, NY, Excel Consultant, May 2020 Dec 2020 Conduct virtual training sessions to enhance introductory and intermediate excel skills.
- MCGARD, Orchard Park, NY, Data Visualization Consultant, November 2019 Conduct training sessions to improve data visualization skills.
- **OPTIMUM PHYSICIAN ALLIANCE, Buffalo, NY,** *Data Analyst Consultant, March present* Assist with creation of data models to be used for medical reporting purposes.
- **PEARSON PUBLISHING,** Faculty Advocate, May 2015 May 2019
 Consult and share suggestions and advice on how to utilize MyStatLab with other educators.

- **ABC-AMEGA INC, Buffalo, NY,** Excel Consultant, August 2016, August 2017, June 2018 Conducted half-day training sessions to enhance introductory and intermediate excel skills.
- NEW ERA CAP, Buffalo, NY, Executive Education Instructor, August 2017

Created a training series titled, Data: Telling Your Story.

Created a program with to enhance participant's ability at communicating business-related implications of data analyses and to effectively communicate a story that provides practical implications.

FRESENIUS KABI USA, Grand Island, NY, Excel Consultant, May 2017

Conducted half-day training sessions to enhance intermediate excel skills.

M&T BANK, Buffalo, NY, Executive Education Instructor, May 2016

Created a training series titled, *Strategic Thinking for Planning, Analysis, and Decision-Making*. Enabled Banking Services Managers to utilize a strategic process (creative & consultative) and tactical tools for effective planning, analysis and decision making.

SAPLING LEARNING, Austin, NY, Business Statistics Content Author, March 2015 - July 2016 Authored clear, engaging questions and solutions of varying difficulties, to test students understanding and application of concepts.

Authored hints and feedback to provide insightful diagnosis of student mistakes and misconceptions to coach students toward mastery.

EDUCATION
